Summary

Aspiring Software Engineer with expertise in Full Stack Development, REST API integration, and scalable web application development. Proficient in Java, Python, React.js, Node.js, Express.js, and MySQL with strong problem-solving and backend development skills. Experienced in Machine Learning applications and modern software engineering practices.

Skills

Skills

Programming: Java, Python, C, JavaScript

Frontend: React.js, HTML5, CSS3

Backend: Node.js, Express.js, Flask, FastAPI, REST API Development

Tools & Databases: MySQL, MongoDB, NoSQL, Git, GitHub, VS Code, Postman

Core Concepts: DSA, OOPs, DBMS, Operating Systems, Computer Networks

Experience

Machine Learning & Generative AI Intern

Feb 2026 – May 2026

Contriver

- Developed ML models, LLM-based applications, and AI workflow automation systems.
- Performed preprocessing, feature engineering, model training, and REST API integration

Web Development Internship

TSIAR Sports Team and Club

Jun 2025 – Dec 2025

- Developed automation tools and supported web/database applications for event management.
- Assisted in backend operations and application maintenance.
- Improved workflow efficiency using software automation solutions.

Projects

GoatIndia.in | Full Stack E-Commerce Platform

- Developed and deployed a responsive full-stack e-commerce platform using React.js, Node.js, Express.js, and MySQL.
- Implemented REST API integration, authentication, and product management features.
- Optimized frontend responsiveness and backend scalability.

Plant Disease Detection | AI-Powered Web Application

- Built an AI-powered plant disease detection system using React.js, FastAPI, Python, and Google Gemini.
- Developed image-based disease prediction and remedy recommendation modules.
- Integrated AI-based analysis with a responsive web interface.

Conversion Rate Optimization | Machine Learning Project

- Developed a Machine Learning model using Python, Pandas, NumPy, and Scikit-learn.
- Analyzed customer behavior data to improve conversion performance.
- Applied data preprocessing and predictive analytics techniques.

Awards & Certifications

- Legacy JavaScript Algorithms and Data Structures V7- freeCodeCamp
- Python 101 for Data Science- Cognitive Class

Education

B.E. in Computer Science Engineering

2022 – 2026

S.K.S.V.M.A College of Engineering and Technology

CGPA: 8.5
